*Echo of the Soul* J. Philip Newell 2002-11 Contending that many of our contemporary negative preoccupations with physical appearance, image, and sexuality derive from the denial of the notion that we were created in God's image, the author uses Old Testament Wisdom literature to show that the human body, like creation, is actually the dwelling place of God, explaining that ancient texts challenge modern assumptions about love, beauty, and sexuality. **Healing With Light Language** Green Leatherr 2021-07-25 Have you ever really listened to the way you talk to people? Have you truly listened to the way you speak? What is it like? Whenever I hear my voice, I feel strange. Is that really me? Recorded voices are even weirder, like disembodied little pieces of me. My voice sounds like it is coming from afar. But language has never really been limited by voice. It is a medium of communication that connects you to someone else. Speech can be constrained by culture, but it can also be free to transform into something else. We have sign language, Braille, and other forms that transcend different types of ability. However, nothing is like the light language. Light language is a means of communication that is more spiritual than intellectual. It connects you to a Higher Being or the Universe instead of merely connecting you to another human. This book will help you: Define and understand light language Use light language to heal various types of conditions Ascend in wisdom and the spirit Pass on your knowledge to others who need it

*Gods and Humans in the Ancient Near East* Tyson L. Putthoff 2020-09-30 In this book, Tyson Putthoff explores the relationship between gods and humans, and between divine nature and human nature, in the Ancient Near East. In this world, gods lived among humans. The two groups shared the world with one another, each playing a special role in maintaining order in the cosmos. Humans also shared aspects of a godlike nature. Even in their natural condition, humans enjoyed a taste of the divine state. Indeed, gods not only lived among humans, but also they lived inside them, taking up residence in the physical body. As such, human nature was actually a composite of humanity and divinity. Putthoff offers new insights into the ancients' understanding of humanity's relationship with the gods, providing a comparative study of this phenomenon from the third millennium BCE to the first century CE.

**The Third Path** Bud Carroll 2013-08-01 "When I finished reading this book, all I could say was WOW! What a stunning piece of literary work... It is concise, brilliantly written, backed by scientific findings, with clear human logic and intelligence. If this doesn't awaken the masses to delve into who and what they truly are, I can't imagine what will." ~ Jerry Issa, teacher of metaphysics, Trenton, Michigan This book will change your life if you let it. If we are accidental beings on a remote planet in a vast universe, existing for merely a blip in cosmic time, what's the point of living at all? Until we learn life is too significant to be a short-lived brilliance that rises out of nothing and ends in nothing, we will continue to live out our lives in, what Thoreau saw as, quiet desperation. We sense the materialistic wall when we ask the question, "Is that all there is?" Without resorting to miracles or magic, this book provides compelling evidence of life beyond the physical world by logically investigating the limitations of matter in the universe, by examining the gaps in scientific theories and by analyzing what the mystics already know about a spiritual existence. It takes a dedicated seeker with no preconceived ideas and no intent on arriving to see beyond the materialistic wall. This book is intended to expand your awareness of life here and hereafter, hopefully providing the spark that will start you on your own personal pilgrimage. The mystics tell us we will be guided to the next step along our spiritual path when we are ready. Are you ready? AWARENESS: The following might be the thoughts of those at different levels of awareness as they walk through a rose garden. I want - I wonder how much I could get for these roses. I believe - God created roses when He created the world and everything in it. I doubt - Roses evolved from wild flowering shrubs, but most garden varieties are hybrids. I seek - How could anything as beautiful as a rose happen purely by chance? I know - Roses, like all life on Earth, are physical manifestations of spirit.

**The Human Body of Light** Mitchell Earl Gibson MD 2014-03-22 According to legend, a number of ancient spiritual masters have dissolved their physical bodies into pure energy. Most used special exercises and techniques that had to be applied over a period of years, the results of which were the total transformation of the physical form into a form of self sustaining light energy. The new light form was immortal and indestructible. Somehow, these legends have not made it into our Western lexicon. The Body of Light represents a complete and total and radical transformation of one's status of being, a rediscovery of what was primordially present, and this condition is permanent. It is Awareness itself and is dependent on nothing else. This may be

compared to the various Christian notions of transfiguration, resurrection, and ascension. There exists in history many examples of the successful completion of this process. Even in recent years there have been a number of Tibetan Lamas, both Buddhist and Bon-po, who attained realization of the Rainbow Body ('ja-lus-pa) at the end of their lives and some of these occurrences were witnessed by Chinese Communist officials. In this book *The Human Body of Light*, board-certified psychiatrist and author Dr. Mitchell Earl Gibson explores this fascinating arena of human potential. This book is designed to explore one question; is it possible for the human body to evolve into pure energy? Through meticulous research and one-of-a-kind insightful observations, *The Human Body of Light* explores the real phenomenon of an extraordinary type of human evolution. The realizations that accompany this knowledge has the potential to change our understanding of what it means to be human.

**Progressive Creation and the Struggles of Humanity in the Bible** Zoltan Dornyei 2018-03-22 Why does the Christian walk often feel like an ongoing struggle and why does God's creation include imperfection, let alone forces that are intent on thwarting God's creative work? In seeking a response to these questions, this book argues that the biblical accounts describe creation in terms of a progressive transformation process whereby the initially incomplete created order will reach perfection only in the fulfillment of new creation. The following discussion then outlines a comprehensive framework for the biblical theology of humanity's struggles, centered on three key themes: corporeal temptation, deficient social structures, and the much-debated notion of spiritual warfare. The book presents an overarching canonical narrative that threads together a series of diverse biblical topics, from Job's temptation to the Atonement. The final part surveys biblical teaching on how human conduct can be aligned with God's creative purpose, and discusses three "assignments" from Jesus to believers: to celebrate the Eucharist, to pray the Lord's Prayer, and to fulfill the Great Commission.

**Hands of Light** Barbara Ann Brennan 2011-03-23 With the clarity of a physicist and the compassion of a gifted healer with fifteen years of professional experience observing 5,000 clients and students, Barbara Ann Brennan presents the first in-depth study of the human energy field for people who seek happiness, health and their full potential. Our physical bodies exist within a

larger "body," a human energy field or aura, which is the vehicle through which we create our experience of reality, including health and illness. It is through this energy field that we have the power to heal ourselves. This energy body -- only recently verified by scientists, but long known to healers and mystics -- is the starting point of all illness. Here, our most powerful and profound human interactions take place, the precursor and healer of all physiological and emotional disturbances. Hands of Light is your guide to a new wholeness. It offers: • A new paradigm for the human, in health, relationship, and disease • An understanding of how the human energy field looks, functions, is disturbed, healed, and interacts with friends and lovers. • Training in the ability to see and interpret auras • Medically verified case studies of healing people from all walks of life with a variety of illnesses. • Guidelines for healing the self and others. • The author's personal and intriguing life adventure which gives us a model for growth, courage and possibilities for expanded consciousness

**Human Rights and the Body** Dr Annabelle Mooney 2014-09-28 Human Rights and the Body is a response to the crisis in human rights, to the very real concern that without a secure foundation for the concept of human rights, their very existence is threatened. While there has been consideration of the discourses of human rights and the way in which the body is written upon, research in linguistics has not yet been fully brought to bear on either human rights or the body. Drawing on legal concepts and aspects of the law of human rights, Mooney aims to provide a universally defensible set of human rights and a foundation, or rather a frame, for them. She argues that the proper frames for human rights are firstly the human body, seen as an index reliant on the natural world, secondly the globe and finally, language. These three frames generate rights to food, water, sleep and shelter, environmental protection and a right against dehumanization. This book is essential reading for researchers and graduate students in the fields of human rights and semiotics of law.

*The Duality of Being* Susan Nicholas, MD 2018-10-24 The Duality of Being details my life and the convoluted journey I made into higher realms of consciousness through my out-of-body travels. In this book, I will share with you the perspectives I've gained that have improved my quality of life, decisions, and relationships. Each of us has the innate ability to separate our life energy from our physical body and travel into faraway dimensions. Many who have experienced multidimensional travel have had a near-death experience that led to this life-changing phenomenon. Others, like myself, have for many years traveled spontaneously into distant realms and this book details the many discoveries. Though this type of energetic travel cannot be measured or assessed with current scientific tools, it is as real an experience as traveling by airplane to visit coveted locations around the world. If my experience is any indication, multidimensional travel is available to us all and offers us a gateway into higher or expanded levels of consciousness. True consciousness comes from the expanded awareness that you are infinitely more than your physical body and that reality is a concept far beyond our physical world.

*Light Emerging* Barbara Ann Brennan 1993 A unique blend of ancient tradition and modern scientific theory, a comprehensive introduction to the science of the human "aura" or energy field discusses how this field can be used for healing. Original. 50,000 first printing.

**Baby Light** Ina/I Gjikondi/G 2016-08-05 Baby Light is a story of love. It's a journey of a family coming together to play and create a new narrative. It's a celebration of the life around us, and a tribute to the sources of nourishment and inspiration that enliven our soul everyday. Light is everywhere in the universe. It's our source of life and renewal. Baby Light offers a simple and powerful perspective in looking at what light is all about, through inquiry and playfulness. It's a way to go deeper with how beauty affects us right NOW; It's about building a mindful life, one that inspires an open mind, an open heart and an open will. Baby Light story aims to be a dialogue builder, a new way of creating a space for children and parents, for families, to celebrate beauty everyday. Baby Light is a light particle, which travels together with the child through the day. In this journey the child inquires with his genuine curiosity and the parents, educators or coaches support him/her to find his/her own truth allowing the imagination to flow openly. Baby light is a prism that breaks light into visible colors for the human eye to see. It's composed by the three basic shapes, that of the square, triangle and circle and it pops up in every page of the book, also offering a sense of surprise. You can also read this book in chunks, because every bit may create the opportunity to further explore wherever the child's imagination takes you. Baby Light Book helps to observe light from a dynamic lens of inquiry, through the eyes of a child by engaging the whole being. This supports the child to build competency in 6(six) developmental streams: cognitive, relational, emotional, somatic, spiritual and integrating. (I attribute these 6 streams to New Ventures West, the coaching school that has been a great foundation for my personal development). These six questions help explore: What is light? (Cognitive) What feelings does it evoke? (Emotional) What happens in your body when light shows up? (Somatic) What is your relationship with light? (Relational) What's its impact in the universe? (Spiritual) What's your story about light? (Integrating) Baby Light is part of the Hadrian Series, a community that supports the growth and the development of children, families and all of us as "human becomings" through embodied conversations and creative expression, celebrating the wonders of life everyday. Our

vision is to create spaces for families and communities to learn, explore and play together. Our desire is to contribute in the cultivation of a mindful life, one that allows human beings to nurture focus and attention, and make choices with an open mind, open heart and open will. Hadrian Series has come to being as a way to respond to this intention, by offering parents, coaches and educators a new narrative to support children in their growth developmentally. This is a two-way path. While the intention is to support the child, through the conversation (from Latin: conversare means to turn to one another), we create our dance of language that brings both the adult and the child together into a discovery, a new narrative that they co-create in partnership.

*Light Pollution as a New Risk Factor for Human Breast and Prostate Cancers* Abraham Haim 2013-06-03 Humans are diurnal organisms whose biological clock and temporal organization depend on natural light/dark cycles. Changes in the photoperiod are a signal for seasonal acclimatization of physiological and immune systems as well as behavioral patterns. The invention of electrical light bulbs created more opportunities for work and leisure. However, exposure to artificial light at night (LAN) affects our biological clock, and suppresses pineal melatonin (MLT) production. Among its other properties, MLT is an antioncogenic agent, and therefore its suppression increases the risks of developing breast and prostate cancers (BC&PC). To the best of our knowledge, this book is the first to address the linkage between light pollution and BC&PC in humans. It explains several state-of-the-art theories, linking light pollution with BC&PC. It also illustrates research hypotheses about health effects of light pollution using the results of animal models and population-based studies.
