Criticism of Theological Reason Fernando Luis Canale 2017-05-09 In the ongoing quest for Christian unity, theological controversies and confessional divisions continue to bar the way. In this work, Fernando Canale attempts to overcome Christianity's theological disagreements by placing theological reason- which unwittingly drives these contentions-under critical investigation. In A Criticism of Theological Reason Canale proposes that theology should undertake this investigation independently from previous philosophical interpretations of reason.

Thus, a Criticism of Theological Reason requires a careful examination of (1) the phenomenological structure of reason, (2) its presuppositional conditions, and (3) the interpretation of Being as either time or timelessness, within the philosophical, theological, and biblical contexts. The philosophical context clarifies the function of reason in the construction of meaning and the role of the interpretations of Being in the functioning of reason. The theological context illustrates the way in which the classical and modern philosophical interpretations of reason have shaped the constitution of theological meanings (exegesis, creeds, and dogmatics). Finally, through an epistemological analysis of Exodus 3:14, Canale shows that the biblical interpretation of Being provides the necessary ground to free Christian theology from the philosophically originated Onto-theo-logical interpretations of reason replacing it with a biblically originated Theo-onto-logical interpretation of theological reason. Canale

hopes that a clearer understanding of reason's workings in theological discourse-particularly the biblical interpretation of Being and reason-will help Christians surmount current theological controversies and foment the ultimate ecumenical goal of Christian unity.

Indicators of Typology Within the Old Testament: the Exodus Motif Friedbert Ninow 2001 This study seeks to ascertain whether there are indicators of typology within the Old Testament. Various elements that comprise biblical typology such as the historical aspect, divine design, prophetic aspect, <l>Steigerung (intensification), and eschatology are traced in a number of texts that

deal with the Exodus motif. Chapter 1 surveys the perception and use of typology throughout the centuries up to the present. Chapter 2 seeks to establish the basic elements that are part of a biblical typology in passages that are directly linked to or describe the Exodus in the Pentateuch. Chapter 3 seeks to trace these elements throughout the prophetic writings that deal with the Exodus motif. This study concludes that there is, indeed, a type/anti-type relation that connects the Old with the New Testament which has various indicators already within the Old Testament.

questions to challenge the reader's viewpoints and expectations Bibliographies for further reading Indices & Glossaries, when appropriate All editions are beautifully designed and are printed to superior specifications; some include illustrations of historical interest. Barnes & Noble Classics pulls together a constellation of influences—biographical, historical, and literary—to enrich each reader's understanding of these enduring works. As an adolescent America searched for its unique identity among the nations of the world, a number of thinkers and writers emerged eager to share their vision of what the American character could be. Among their leaders was Ralph Waldo Emerson, whose essays, lectures, and poems defined the American transcendentalist movement, though he himself disliked the term. Emerson advocates a rejection of fear-driven conformity, a total independence of thought and spirit, and a life lived in harmony with nature. He believes that Truth lies within each individual, for each is part

of a greater whole, a universal “over-soul” through which we transcend the merely mortal. Emerson was extremely prolific throughout his life; his collected writings fill forty volumes. This edition contains his major works, including Nature, the essays “Self-Reliance,” “The American Scholar,” “The Over-Soul,” “Circles,” “The Poet,” and “Experience,” and such important poems as “The Rhodora,” “Uriel,” “The Humble-Bee,” “Earth-Song,” “Give All to Love,” and the well-loved “Concord Hymn.” Includes a comprehensive glossary of names. Peter Norberg has been Assistant Professor of English at Saint Joseph’s University in Philadelphia since 1997. A specialist in New England transcendentalism and the history of the antebellum period, he also has published on Herman Melville’s poetry. He currently is writing a history of Emerson’s career as a public lecturer.

The Book of Hebrews M.L. Andreasen

2014-03-24 The book of Hebrews appeared during a critical time in the history of the early

church. The destruction of Jerusalem was impending and many of the believers believed the end of the world was near. However, Paul warned the church against entertaining a false hope, for he knew they were misguided with their beliefs. It was a critical time—the apostles were passing away, and soon the church would be left alone. It was in this hour of perplexity that the book of Hebrews appeared with needed light and comfort. The people needed a clear conception of the work Christ was doing for them in the courts above, and this book explained the delay in His return, and restored their wavering faith. The conditions and problems which the church then had to meet are not unlike those facing the church today. While the early church was living at the time of the fulfillment of the first part of Christ’s prophecy—the destruction of the city of Jerusalem and the temple, we are living at the time of the fulfillment of the second part of the prophecy—the coming of the Lord Jesus in the clouds of heaven. As there was misconceptions of

Christ's work in the sanctuary then, so there are those now who likewise err. There is as much need today of a thorough study of the Scriptures as there was then, and more so. The book of Hebrews was a great factor in stabilizing the apostolic church in the crisis hour before the fall of Jerusalem, and it is hoped that a discussion of the mighty themes of the book of Hebrews will be of some help to the church of God today. All need to have their eyes fastened on our great High Priest and the work He is doing in the sanctuary above. And may it be the blessed privilege of many with "boldness to enter into the holiest by the blood of Jesus, by a new and living way, which he hath consecrated for us, through the veil, that is to say, his flesh." (Heb. 10:19, 20.) This was the prayer and hope of the author of Hebrews, and this also is the hope of the author of this volume.

Khirbet Nisya David P. Livingston 2003 What ancient community was perched on the summit of Khirbet Nysia? Did Abraham stand overlooking this hill and get his first glimpse of the Dead Sea -- perhaps on a clear day at sunrise? Who lived here centuries ago? Who planted and tended the vineyards, pressed the grapes and stored jars of wine underground? Who turned the potter's wheel, and who formed the jars, cooking pots, bowls, etc. by which we date our finds -- sometimes leaving fingerprints in the clay before it was baked! Who processed olives in the large olive-pressing cave? And who was immersed in the mikveh, or hid in underground caves when an enemy crept up the wadi? Who, in their final day, was buried in one of the tombs on the hillside? Inhabited most of the time for more than 3000 years, this small hilltop site left its traces of ancient civilization, and now teams of archaeologists and volunteers dig for answers. Mr. Livingston's book is the result of more than

30 years of research in an attempt to answer these questions. The author also includes historical background from the Bible and Jewish literature, thus throwing light on the activities of the ancient community of Khirbet Nysia as well as suggesting some new interpretations of passages in the Tanach and, for those who follow it, from the Berit Hadashah. - Back cover.

Within the Veil Félix Cortez 2020-08-30 Most scholars understand that the Day of Atonement ritual of Leviticus 16 provides the main template for understanding Jesus's death and exaltation in the argument of Hebrews. This study suggests that the perspective of Hebrews is much wider than that, conceiving of the ascension as the inauguration of Jesus' office as "Son" at the "right hand of God." The title "Son" is the fulfillment of the promises made to David (2 Sam 7:12-15), which are claimed for Jesus explicitly in Heb 1:5 and 13. This connection to the Davidic covenantal traditions brings closer the theology of Hebrews and the theology of other New

Testament documents, which opens new vistas for understanding early Christianity.

The Gospel of Relaxation (Annotated)

William James 2020-03-21 Before concluding that the Good News brings the good life ("The really religious person is... unshakable and full of equanimity, and calmly ready for any duty that the day may bring forth"), William James -- in his classic self-help treatise -- begins with principles of psychology and with tips for improving the mind-body connection. The American "bottled-lightning" approach to life from his day (prefiguring our own overly busy lives now, a century later) finds a cure through various means, from athletics to religion. James points to the ultimate means of testing the route to a quiet demeanor: "the sovereign cure for worry is religious faith." The multifaceted and sometimes paradoxical advice is still valid today in the search for inner peace.

Continuity and Change in Christian Doctrine

Rolf Pöhler 1999 This book provides a scholarly & concise introductory treatment of the problem of doctrinal development. The author defines & delineates the problem, offers a historical-genetic survey of proposed solutions, & presents a systematic-typological analysis of possible responses to doctrinal change. The study concludes that doctrinal development involves complex theological & hermeneutical issues, that there are three fundamental approaches successively developed in history in response to the growing awareness of doctrinal change, & that the numerous theories of doctrinal development may be classified in three 'ideal' types representing the basic options available to the Christian church today. In the view of the author, a dialectic approach that is concerned for substantial continuity as well as authentic change can best avoid the twin dangers of doctrinaire immobilism & precipitate revisionism. Contents: The problem of doctrinal development

THE CONSOLATION OF PHILOSOPHY (The Sedgefield Translation) Anicius Manlius

Severinus Boethius 2017-10-06 Consolation of Philosophy (Latin: Consolatio Philosophiae) is a philosophical work by Boethius, written around the year 524. It has been described as the single most important and influential work in the West on Medieval and early Renaissance Christianity, and is also the last great Western work of the Classical Period. Anicius Manlius Severinus

Boëthius, commonly called Boethius (c. 480–524 or 525 AD), was a philosopher of the early 6th century. He was born in Rome to an ancient and prominent family which included emperors Petronius Maximus and Olybrius and many consuls. His father, Flavius Manlius Boethius, was consul in 487 after Odoacer deposed the last Western Roman Emperor. Boethius, of the noble Anicia family, entered public life at a young age and was already a senator by the age of 25. Boethius himself was consul in 510 in the kingdom of the Ostrogoths. In 522 he saw his two sons become consuls. Boethius was imprisoned and eventually executed by King Theodoric the Great, who suspected him of conspiring with the Eastern Roman Empire. While jailed, Boethius composed his *Consolation of Philosophy*, a philosophical treatise on fortune, death, and other issues. The *Consolation* became one of the most popular and influential works of the Middle Ages.

Book of Revelation 5 Ranko Stefanović 1996 [Death and the Afterlife](#) Robert A. Morey 1984 A valuable reference work on a subject largely ignored by the Church in recent years.

Incarnation and Covenant in the Prologue to the Fourth Gospel (John 1:1-18) Wilson Paroschi 2006 This study deals with the structural and exegetical relationship between pre-existence and incarnation in the dynamics of John's Prologue (John 1:1-18). It discusses the point in the narrative at which the shift from the pre-existent Logos to the incarnate Christ takes place and, therefore, the perspective from which the individual parts of the passage (vss. 1-5; vss. 6-13; vss. 14-18) should be interpreted. By making a detailed and comprehensive analysis of the text and evaluating all contrasting views on the subject, the book shows the essential chronological order of the narrative, whose climax (vss. 14-18) is not the announcement of the incarnation proper, but rather a profound theological reflection on the significance of that

event based on the covenantal traditions of the exodus story and later prophetic expectations. Buddhist-Christian Dialogue Paul O. Ingram 2007-04-01 The essays in this volume focus on philosophical, theological, and structural aspects of contemporary Buddhist-Christian dialogue in an effort to assess its potential as a source for the renewal and transformation of both traditions. Writing from differing assumptions, academic disciplines, and religious world views, the nine Christian and two Buddhist contributors are nevertheless agreed that interreligious dialogue can contribute meaningfully to our understanding of some of the profound issues arising out of modern self-consciousness. Believing that the human community and its survival are threatened everywhere by secularism, they seek to show that the dialogue between Buddhists and Christians can provide not only insights but a conceptual framework for authentic living in the present age of religious pluralism. Each writer shares the conclusion that

Buddhist-Christian encounter is vitally important for a larger understanding of contemporary issues of self-identity, evil, communication, and fulfillment.

This Connection of Everyone with Lungs Juliana Spahr 2005-04 "In a time of war, dirty air, missile worship when all oracles seem silenced, from every eco-lyric pore these fine auroras of *This Connection of Everyone With Lungs* have been streaming. Registering 9/11 as cellular rupture, this is a work of full globality which redeems our time, makes us remember all that poetry is capable of as form, frame, syntax linking air, earth, lung; what Emerson meant by lyric language as nothing less than externalization of planet's soul."—Rob Wilson, author of *Waking in Seoul* "By listing, by naming, the atrocities—the harrowing stats, the scary particulars—in our world-at-endless-war—we might at least exert control over our sanity and extend our mind and compassion to others. It is a connected universe as Spahr so forcefully and powerfully reminds us.

This Connection of Everyone with Lungs is a sustained and anaphoric meditation, a catharsis for our predicament."—Anne Waldman

Hawaiian Mythology Martha Warren Beckwith 1982-06-01 Ku and Hina-man and woman-were the great ancestral gods of heaven and earth for the ancient Hawaiians. They were life's fruitfulness and all the generations of mankind, both those who are to come and those already born. The Hawaiian gods were like great chiefs from far lands who visited among the people, entering their daily lives sometimes as humans or animals, sometimes taking residence in a stone or wooden idol. As years passed, the families of gods grew and included the trickster Maui, who snared the sun, and fiery Pele of the volcano. Ancient Hawaiian lived by the animistic philosophy that assigned living souls to animals, trees, stones, stars, and clouds, as well as to humans. Religion and mythology were interwoven in Hawaiian culture; and local legends

and genealogies were preserved in song, chant, and narrative. Martha Beckwith was the first scholar to chart a path through the hundreds of books, articles, and little-known manuscripts that recorded the oral narratives of the Hawaiian people. Her book has become a classic work of folklore and ethnology, and the definitive treatment of Hawaiian mythology. With an introduction by Katherine Luomala.

The Development of the Seventh-Day Adventist Understanding of Ellen G. White's Prophetic Gift

Theodore N. Levterov 2015-02-13 Ellen G. White was a major figure of nineteenth-century American Christianity although she has not been widely studied or researched. Shortly after the second coming of Jesus predicted by the Millerites did not materialize on October 22, 1844, White became one of the principal leaders of a small remnant group of disappointed believers. She also began claiming visionary manifestations. The Sabbatarians, who later came to be known as the Seventh-day

Adventists, gradually accepted White as having the genuine gift of prophecy and her gift became one of their distinctive doctrines. How did the early Sabbath-keeping Adventists become convinced of her prophetic claims?
 This volume is a historical examination of the process through which early Seventh-day Adventists justified and accepted White's prophetic claims between 1844 and 1889. It evaluates and analyzes the development of their understanding of the doctrine of the gift of prophesy in general, and White's gift in particular. In 1844, she

claimed to have received her first vision, and by 1889, the essential arguments for and against her prophetic gift were in place.
 Ellen White's gift of prophecy has remained a controversial subject within and outside the Seventh-day Adventist denomination. This analysis provides an important historical context that illuminates the prophetic claims of Ellen White and the attempts of her denomination to find a more balanced and informed approach toward such a complex topic.
