**A Detroit Story** Claire W. Herbert 2021-02-03 "Bringing to the fore a wealth of original research, *A Detroit Story* examines how the reclamation of abandoned property has been shaping the city for decades. Herbert lived in Detroit for almost five years to get a ground-view sense of how this process molds urban areas--participating in community meetings and tax foreclosure protests, interviewing various groups, following scrappers through abandoned buildings, and visiting squatted houses and gardens. Herbert found that there's a disjunction between different types of property reclaimers: lifestyle back-to-the-earth new residents, primarily more privileged, whose practices are often formalized by local policies, and longtime more disempowered residents, often representing communities of color, whose practices are marked as illegal and illegitimate. She teases out how the divergent treatment of these two approaches to informally claiming property reproduces long-standing inequalities in race, class, and property ownership. More generally, *A Detroit Story* examines how the attempt to formalize property informality in cities harms the most vulnerable"--

**Bankruptcy Litigation Manual 2014-2015e** Cook 2014-12-01 Every step

in the business bankruptcy litigation process is covered in Aspen Publishers' Bankruptcy Litigation Manual, from the drafting of the first pleadings through the appellate process. In fact, by making the Bankruptcy Litigation Manual a part of your working library, you not only get detailed coverage of virtually all the topics and issues you must consider in any bankruptcy case, you also get field-tested answers to questions you confront every day, such as: How to stay continuing litigation against a corporate debtor's non-debtor officers? What are the limits on suing a bankruptcy trustee? Is the Deprizio Doctrine still alive? Does an individual debtor have an absolute right to convert a case from Chapter 7 to Chapter

13? What prohibitions exist on cross-collateralization in financing disputes?

Are option contracts "executory" for bankruptcy purposes? When, and under what circumstances, may a bankruptcy court enjoin an administrative proceeding against a Chapter 11 debtor? What are the current standards for administrative priority claims? When must a creditor assert its setoff rights? When can a remand order issued by a district court be reviewed by a court of appeals? What are the limits on challenging pre-bankruptcy real property mortgage foreclosures as fraudulent transfers? Can an unsecured lender recover contract-based legal fees incurred in post-bankruptcy litigation on issues of bankruptcy law? Is there a uniform federal limitation on perfecting security interests that primes a longer applicable state law period, thus subjecting lenders to a preference attack? Do prior bankruptcy court orders bar a plaintiff's later state court suit and warrant removal of the action in federal court? Michael L. Cook, a partner at Schulte Roth & Zabel LLP in New York and former long-time Adjunct Professor at New York University School of Law, has gathered together some of the country's top bankruptcy litigators to contribute to Bankruptcy Litigation Manual.

**Collateral Damages** Meredith Greif 2022-06-23 Changes in federal housing

policies over the past several decades shifted the primary responsibility for providing low-income renters with affordable housing from the government to private landlords. Federal, state, and local governments have passed laws to ensure that low-income renters are protected from illicit landlording practices. Yet we know little about how private landlords experience local housing regulations. In *Collateral Damages*, sociologist Meredith Greif examines how local laws affect private landlords and whether tenants are, in fact, being adequately protected. For three years, Greif followed sixty private landlords serving low- and moderate-income residents in the Cleveland, Ohio, metropolitan area to better understand how local regulations, such as criminal activity nuisance ordinances (CANOs) and local water billing regulations, affect their landlording practices. CANOs are intended to protect communities by discouraging criminal activity on private properties. Property owners can face financial and criminal sanctions if they do not abate nuisance activities, which can include littering, noise, drug use, and calls for police assistance, including calls for domestic violence. Local water billing regulations hold landlords responsible for delinquent water bills, even in cases where the account is registered in the tenant's name. Greif finds that such laws often increase landlords' sense of "financial precarity" – the real or perceived uncertainty that their business is financially unsustainable – by holding them responsible for behavior they feel is out of their control. Feelings of financial uncertainty led some landlords to use illegitimate business practices against their tenants, including harassment, oversurveillance, poor property upkeep, and illegal evictions. And to avoid financial penalties associated with CANOs and delinquent water bills, some landlords engage in discriminatory screening of vulnerable potential tenants who are unemployed or have

histories of domestic violence or drug use. In this sense, by promoting a sense of financial insecurity among landlords, laws meant to protect renters ultimately had the opposite effect. While some landlords, particularly those who rented a larger number of units, were able to operate their businesses both lawfully and profitably, the majority could not. Greif offers practical recommendations to address the concerns of small- and mid-sized landlords, such as regular meetings that bring landlords and local authorities together to engage in constructive dialogue about local housing policy, issues, and concerns. She also proposes policy recommendations to protect renters, such as establishing the right to counsel for lower-income tenants in eviction hearings and enacting a federal renter's tax credit. *Collateral Damages* is an enlightening investigation on how local laws and practices perpetuate disadvantage among marginalized populations and communities, in ways that are hidden and often unintended.

*Property Law* Jerry L. Anderson 2019-02-01 *Property Law: Practice, Problems, and Perspectives, Second Edition* is a truly contemporary 1L Property text. This book is distinguished by its extraordinarily clear and engaging writing, and by the degree to which the authors make the material accessible and enjoyable to students in this foundational course. The authors embrace the task of training lawyers, and as a result, their text regularly asks students to answer questions and solve problems from the perspective of attorneys. The authors delve fully into legal doctrine and address profound policy issues in a direct and understandable manner, drawing upon an outstanding range of case opinions, including those from seminal cases as well those from recent and provocative disputes. The text uses a two-color design and includes a wonderful selection of photographs. Important documents useful to teaching particular cases and material are reproduced throughout. *Property Law: Practice, Problems, and Perspectives* is more than just a text. It incorporates a truly unique online simulation that features practice-ready materials and professionally-produced, author-scripted videos that illuminate property law issues and disputes. The text regularly references documents used in practice, which are available to students in the simulation. New to the Second Edition: Revised and updated case opinions and textual discussion. For example: The section addressing the Fair Housing Act now includes a discussion of disparate impact litigation after *Texas Dept. of Housing and Community Affairs v. Inclusive Communities Project, Inc.* The chapter devoted to takings law now includes summaries of *Horne v. Dept. of Agriculture* and *Murr v. Wisconsin*. New and sometimes startling images, such as a subdivision-marketing poster from San Diego in 1915 that offers a frightening example of pervasive discriminatory housing practices that existed prior to the Fair Housing Act. Enjoyable new problems drawn from reported case opinions. For example, the problem of "The Obstinate Ex," involving a couple who live together in a home owned individually by one of them. When that person breaks off the relationship, the other refuses to move out, claiming an interest in the property. Professors and students will benefit from: A blend of property doctrine and real-world practice, featuring a stimulating, challenging presentation that is also transparent. The book retains the subtlety of the classic texts but comments explicitly on the overlapping elements to ensure that students can see all the connections

among legal doctrines. A unique interactive element that teaches students how to read a land survey, helping them understand the issues presented by the text in case opinions and problems. The transactional perspective adopted by the authors in relevant chapters, such as real estate transactions and landlord/tenant law. A unique border along the edge of the text in the chapter on the real property transaction, allowing students to place key concepts and doctrinal material in the context of phases of the transaction. A robust electronic version of the casebook, along with online videos and practice-ready materials. A book that is the ideal text for a four-unit course, but includes ample coverage permitting a professor to construct a five- or six-unit course. The purchase of this Kindle edition does not entitle you to receive access to the online e-book, practice questions from your favorite study aids, and outline tool available through CasebookConnect.

**Actions and defenses: Landlord and tenant** Clement Bates 1908

U. S. Farmland Ownership, Tenure, and Transfer Daniel Bigelow 2016-09-28 Farmland tenure shapes many farm decisions, including those related to production, conservation, and succession planning. The relatively advanced age of many farmers raises questions about land ownership, especially how land will be transferred to the next generation of agricultural landowners and operators. This study provides a descriptive baseline analysis of land ownership and then focuses on more detailed aspects of land tenure, including non-operator landlords, rental agreements, the acquisition and transfer of land, and how decisionmaking is shared by landlords and their tenants. The report is designed to support broad discussions related to agricultural land ownership and to provide a starting point for more detailed statistical analysis. Figures and tables. This is a print on demand report.

**Permanent Supportive Housing** National Academies of Sciences, Engineering, and Medicine 2018-08-11 Chronic homelessness is a highly complex social problem of national importance. The problem has elicited a variety of societal and public policy responses over the years, concomitant with fluctuations in the economy and changes in the demographics of and

attitudes toward poor and disenfranchised citizens. In recent decades, federal agencies, nonprofit organizations, and the philanthropic community have worked hard to develop and implement programs to solve the challenges of homelessness, and progress has been made. However, much more remains to be done. Importantly, the results of various efforts, and especially the efforts to reduce homelessness among veterans in recent years, have shown that the problem of homelessness can be successfully addressed. Although a number of programs have been developed to meet the needs of persons experiencing homelessness, this report focuses on one particular type of intervention: permanent supportive housing (PSH). Permanent Supportive Housing focuses on the impact of PSH on health care outcomes and its cost-effectiveness. The report also addresses policy and program barriers that affect the ability to bring the PSH and other housing models to scale to address housing and health care needs.

Communities in Action National Academies of Sciences, Engineering, and Medicine 2017-04-27 In the United States, some populations suffer from far greater disparities in health than others. Those disparities are caused not only by fundamental differences in health status across segments of the population, but also because of inequities in factors that impact health status, so-called determinants of health. Only part of an individual's health status depends on his or her behavior and choice; community-wide problems like poverty, unemployment, poor education, inadequate housing, poor public transportation, interpersonal violence, and decaying neighborhoods also contribute to health inequities, as well as the historic and ongoing interplay of structures, policies, and norms that shape lives. When these factors are not optimal in a community, it does not mean they are intractable: such inequities can be mitigated by social policies that can shape health in powerful ways. *Communities in Action: Pathways to Health Equity* seeks to delineate the causes of and the solutions to health inequities in the United States. This report focuses on what communities can do to promote health equity, what actions are needed by the many and varied stakeholders that are part of communities or support them, as well as the root causes and structural barriers that need to be overcome.

In Defense of Housing Peter Marcuse 2016-08-16 In every major city in the world there is a housing crisis. How did this happen and what can we do about it? Everyone needs and deserves housing. But today our homes are being transformed into commodities, making the inequalities of the city ever more acute. Profit has become more important than social need. The poor are forced to pay more for worse housing. Communities are faced with the violence of displacement and gentrification. And the benefits of decent housing are only available for those who can afford it. *In Defense of Housing* is the definitive statement on this crisis from leading urban planner Peter Marcuse and sociologist David Madden. They look at the causes and consequences of the housing problem and detail the need for progressive alternatives. The housing crisis cannot be solved by minor policy shifts, they argue. Rather, the housing crisis has deep political and economic roots—and therefore requires a radical response.

Evidence and Innovation in Housing Law and Policy Lee Anne Fennell 2017-08-31 No area of law and policy is more central to our well-being than housing, yet research on the topic is too often produced in disciplinary or methodological silos that fail to connect to policy on the ground. This pathbreaking book, which features leading scholars from a range of academic fields, cuts across disciplines to forge new connections in the discourse. In accessible prose filled with cutting-edge ideas, these scholars address topics ranging from the recent financial crisis to

discrimination and gentrification and show how housing law and policy impacts household wealth, financial markets, urban landscapes, and local communities. Together, they harness evidence and theory to capture the 'state of play' in housing, generating insights that will be relevant to academics and policymakers alike.
